Education

University of Washington   *Seattle, WA*
M.S. in Human Computer Design and Engineering (HCDE)   *Sep. 2024 - PRESENT (Jun. 2026)*

University of California, Davis   *Davis, CA*
B.S. in Cognitive Science (Received Cognitive Science Award) and B.A. in Design   *Sep. 2020 - Jun. 2024*

Skills

Design Figma, Illustrator, Photoshop, Canva, Mural
Programming Javascript, HTML, CSS, Python, React, Bootstrap, JQuery, Swift

Work Experience

IBM   *San Francisco, CA*
Innovation Designer Intern - Full-time Offer Received   *Jun. 2023 - Aug. 2023*
- Conducted workshops with various healthcare companies, following value engineering principles to (1) assess the suitability of WatsonX Orchestra, (2) identify new business opportunities, (3) co-create customized, user-centric solutions, and (4) assist them with data migration.
- Contributed to redesigning the SaaS Console Website, improving the overall visual saliency of alerts and facilitating paid subscription renewal.
- Completed training on IBM products such as RedHat, CloudPak, and WatsonX Orchestrate to assist customers better.

UW Makeability Lab   *Seattle, WA*
Undergraduate Research Intern, Advised By Prof. Jon Froelich   *Jun. 2023 - Aug. 2023*
- Designing an application for wearable augmented reality (AR) to support low vision people playing tennis using real-time computer vision.
- Co-authored and published a paper **[Link]** at UIST 2023 (4th author), a premier conference in the human-computer interaction (HCI) field.
- Featured in an article **[Link]** by UW CREATE, the Center for Research and Education on Accessible Technology and Experiences.

SchedGo   *Davis, CA*
Publicity Team Lead, Front-end Software Engineer & Designer   *Sep. 2021 - Jun. 2022*
- Led the design and development of the profile page of SchedGo **[Link]**, a web application that facilitates class scheduling for students.
- Led the design and management of SchedGo's social media page. **[Link]**

SacHacks   *Davis, CA*
Design Associate   *Mar. 2022 - Sep. 2022*
- Designed flyers, posters, graphics, and a new website to promote SacHacks, the largest hackathon in Sacramento, CA. **[Link]**
- Designed and wrote proposals and email templates to reach out to potential sponsors (e.g., IBM, MLH).

Include   *Davis, CA*
Front-end Developer & Designer   *Mar. 2021 - Dec. 2022*
- Designed the Gallery page of a website for "Bloom & Vine," a local boutique floral design studio serving Northern California. **[Link]**
- Created the Landing page of a website for "Breaking Barriers," a nonprofit that connects senior citizens to university students. **[Link]**

Extracurricular Activity

Cognitive Science Student Association (CSSA)   *Davis, CA*
Co-Founder & Co-President   *Mar. 2022 - Jul. 2024*
- Introduced the field of Cognitive Science to students and hosted networking, workshop, research, fundraising, and the first Cognitive Science Conference at UC Davis while leading a 15-member board. **[Link]**

Davis Women in Computer Science (WiCS)   *Davis, CA*
Design Director   *Jun. 2023 - Jun. 2024*
- Creating graphics to promote WiCS meetings and mentoring female undergraduates in computer science. **[Link]**

Certifications

2022   **IBM Accelerate - Design**, by IBM Accelerate   *IBM Accelerate*
